

Between the Mountains

"Between the Mountains" is a wonderful local history resource compiled and edited by former student Charlie Kajewski.

Charlie, a practised family historian, incorporated the booklet published for the school's 100th anniversary and encouraged local families to contribute items about their respective families.

The book includes a fascinating insight into the local community, historical data of the school as well as more up to date information about former students.

The book was published in conjunction with the school's 125th anniversary celebrations in 2005 and is a must have for anyone with links to the Ma Ma Creek community.

It can be purchased through the school office for \$25.00.
